Malibu Creek

Malibu creek is an amazing outing, to hang out with friends and hike to beautiful places. It was very dewy there, and got very cold at night, but we scouts can handle the cold. When we got there, all of us

immediately found a nice place to lay down and stake down our tarps, and tents. Then we went on a nice hike to a little pond, and some scouts went into the icy cold water for a swim. It was

very slippery to be on the rocks, so we didn't get to stay there long. We had lots of fun with the 4 awesome Webelos and their parents who joined us. They also got to hike, played football, learned how to pitch tents and worked on fire skills. In the morning we saw a herd of deer, and then we

packed away into cars and headed for home.
